

Congratulations on your purchase! We are very happy to help you implement the safest possible return to work. These are our best practices and instructions for using The Facial Guardian System:

1. Unpack your Facial Guardian System. The box should include:
 - a. The Facial Guardian Shield
 - b. A Handheld steamer
 - c. A microfiber towel.
2. Remove the plastic wrap from The Facial Guardian. BE CAREFUL. The shield will scratch however it will not break with normal use or even the unfortunate drop from a table.
3. Unpack your handheld steamer and follow manufacturer instructions for use.
4. Unpack your microfiber towel.

Plug in the filled steamer and sit under the shield. Allow steam to fill the client area of the shield for 15 minutes. Turn off the steamer. Remove excess liquid from the shield with the microfiber towel.

You are ready to use it!

Repeat this process after each client visit.

Remember

- The Facial Guardian should not be cleaned with harsh chemicals or UV light. This will discolor the material after repeated exposure.
- You may submerge The Facial Guardian in hot soapy water and dry with the microfiber towel.
- When washing your microfiber towel do not use fabric softener
- Dry completely to sanitize the towel.
- Remove the water from the steamer daily for best operation.

Please call us at 843-990-9386 or [email us](#) with any questions or concerns. We would love your positive review or an opportunity to correct any concerns you may have. Your satisfaction is our priority.
